### Product description

When a young child or teenager passes away it is so heart wrenching and those who have to bear the loss go through a very hard time. From our experience with creating and selling cremation urns we know what it feels like, and this is one of the reasons why we do our best to offer handmade cremation urns that can alleviate some of the pain by providing a beautiful resting place for that sweet child's ashes. This particular child urn was created with this in mind - and the hands of the angel encapsulating the sphere within them are an endearing depiction of this situation. The hands are made to look cracked and with red tinges signifying bleeding and pain.

The ball is made in a way that it will glow when exposed to light, and even at night it will be visible fluorescently. The child has gone to a better place, despite the fact that you would have loved to hold him or her to you. However now that the child passed away you have the solace that an angel will be taking care of him or her in a better place where there is no pain and suffering.

The urn is made from high quality stainless steel and it is polished and sleek. The hands around the sphere are made from cast concrete. The opening is situated at the base so that it is not noticeable. Moreover, you can personalise the urn with a plaque, where we can write what you like. This is a unique urn that has been very popular with customers who are looking for a child urn, or a pet urn as it is relatively small when compared with adult urns.

Our unique Urn for Children is a fitting way to remember a child and keep those treasured memories alive.
